Unique lab equipment · Quality made in Germany · For more than 55 years

**Why reinventing the wheel?** The new smoking machine RM 20 CS B is our state-of-the-art successor of the well-known and established RM 20 CS/R, which have been sold more than 250 times worldwide. The RM 20 CS B unit now is microprocessorcontrolled, completely configured and includes all necessary technical features for routine analyses. And of course our RM 20 CS B meets all current ISO standards and works perfectly in day-to-day smoking analysis.
